# Rohan Manish Kansara

## Frontend Developer(React)

## PROFESSIONAL SUMMARY

I'm a talented web developer who's good at using JavaScript, HTML, and CSS, and I'm currently learning React. I'm great at working with others in a team and paying close attention to the details to make sure our websites are top-notch and can grow as needed.

## PROJECTS

### 1. boAt Clone | 🌐 | 📱

#### HTML | CSS | Javascript

- Contributed to a team project cloning the boAt official website for electronic items.
- Ensured a responsive homepage with a user-friendly Hamburger menu.
- Implemented user registration, product browsing, cart functionality, and order placement features collaboratively.

### 2. Online Auto Part Shop | 🌐 | 📱

#### HTML | CSS | Javascript

- Developed an online auto part purchasing app.
- Implemented Firebase authentication for user login and signup.
- Integrated API and JSON server for dynamic data display.
- Facilitated seamless payments via Razorpay.

## WORK EXPERIENCE

### Aarish Power

#### Intern

October 2022 - July 2023

#### Job responsibilities:

- Utilized *Solidworks* to intricately design solar power plant structures while aligning with industry standards.
- Serve as an on-site engineer, overseeing project implementation, ensuring seamless execution, and resolving technical challenges promptly.

### MR Engineering

#### Family Business

July 2023 - February 2024

#### Job responsibilities:

- Handling family business due to family issues, where I am responsible for on-site installations of solar power plants and team management.
- Additionally, I handle customer queries regarding the installed solar power plants and maintenance.
